

Appl. No.: 09/823,437

Amdt. dated: February 26, 2004

Reply dated: August 17, 2004

Amendments to the Specification:

In the Specification:

Please amend the abstract as follows:

~~A technique for detecting semantically significant events in a video sequence.~~ A method of determining the boundary of a slow motion replay of an event in a video includes determining a statistical measure of different portions of the video. The video may include the event and the slow motion replay of the event. Based upon the statistical measure determining the boundary of the slow motion replay of the event.
